1 Spontaneous group management in mobile Ad Hoc networks

Laura Galluccio, Giacomo Morabito, Sergio Palazzo

July Wireless Networks, Volume 10 Issue 4

2004

Publisher: Kluwer Academic Publishers

Full text available: [pdf\(448.23](#)

[KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

This paper deals with the problem of Location Management in mobile ad hoc networks where users are organized in groups. In the following this type of systems are referred to as Mobile Ad hoc Networks for Group Operations (MANGO). This paper proposes ...

Key words: ad hoc networks, group mobility, location updating, mobility management

2 [Distance, dependencies, and delay in a global collaboration](#)

 James D. Herbsleb, Audris Mockus, Thomas A. Finholt, Rebecca E. Grinter
December 2000 CSCW '00: Proceedings of the 2000 ACM conference on Computer supported cooperative work

Publisher: ACM

Full text available:  [pdf\(149.61 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [cited by](#), [index terms](#)

Collaborations over distance must contend with the loss of the rich, subtle interactions that co-located teams use to coordinate their work. Previous research has suggested that one consequence of this loss is that cross-site work will take longer than ...

Keyw ords: awareness, delay, global collaboration, informal communication, interdependence, software development, speed

3 [Cybercrime, identity theft, and fraud: practicing safe internet - network security threats and vulnerabilities](#)

 Robert C. Newman
September 2006 InfoSecCD '06: Proceedings of the 3rd annual conference on Information security curriculum development

Publisher: ACM

Full text available:  [pdf\(123.56 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Computer networks and computer systems are experiencing attacks and threats from many areas. Threats are also extended to include the individual user's computer assets and resources. Information will be presented on the categories of security and privacy ...

Keyw ords: cybercrime, identity theft, internet fraud

4 [Analysis of bounded time warp and comparison with YAWNS](#)

 Phillip M. Dickens, David M. Nicol, Paul F. Reynolds, Jr., J. M. Duva
October 1996 ACM Transactions on Modeling and Computer Simulation (TOMACS), Volume 6 Issue 4

Publisher: ACM

Full text available:  [pdf\(370.28 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [cited by](#), [index terms](#), [review](#)

This article studies an analytic model of parallel discrete-event simulation, comparing the YAWNS conservative synchronization protocol with Bounded Time Warp. The assumed simulation problem is a heavily loaded queuing network where the probability of ...

Keyw ords: parallel simulation, synchronization protocol

5 Synchronous broadcast messaging: the use of ICT

Justin D. Weisz, Thomas Erickson, Wendy A. Kellogg

April CHI '06: Proceedings of the SIGCHI conference on Human Factors in computing systems

Publisher: ACM

Full text available: [pdf\(942.23 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [cited by](#), [index terms](#)

IBM Community Tools (ICT) is a synchronous broadcast messaging system in use by a very large, globally distributed organization. ICT is interesting for a number of reasons, including its scale of use (thousands of users per day), its usage model of employing ...

Keywords: CMC, CSCW, IM, broadcast messaging, chat, instant messaging, social computing

6 Mariposa: a wide-area distributed database system

Michael Stonebraker, Paul M. Aoki, Witold Litwin, Avi Pfeffer, Adam Sah, Jeff Sidell, Carl Staelin, Andrew Yu

January The VLDB Journal — The International Journal on Very Large Data Bases, Volume 5 Issue 1

Publisher: Springer-Verlag New York, Inc.

Full text available: [pdf\(172.75 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [cited by](#), [index terms](#)

The requirements of wide-area distributed database systems differ dramatically from those of local-area network systems. In a wide-area network (WAN) configuration, individual sites usually report to different system administrators, have different access ...

Keywords: Autonomy, Databases, Distributed systems, Economic site, Name service, Wide-area network

7 Implementing declarative overlays

Boon Thau Loo, Tyson Condie, Joseph M. Hellerstein, Petros Maniatis, Timothy Roscoe, Ion Stoica

October SOSOP '05: Proceedings of the twentieth ACM symposium on Operating systems principles

Publisher: ACM

Full text available: [pdf\(370.85 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [cited by](#), [index terms](#)

Overlay networks are used today in a variety of distributed systems ranging from file-sharing and storage systems to communication infrastructures. However, designing, building and adapting these overlays to the intended application and the target environment ...

Keywords: dataflow engines, declarative overlays, executable pseudocode

8 Manageability, availability, and performance in porcupine: a highly scalable, cluster-based mail service

Yasushi Saito, Brian N. Bershad, Henry M. Levy

August 2000 ACM Transactions on Computer Systems (TOCS), Volume 18 Issue 3

Publisher: ACM

Full text available:  [pdf\(2.52 MB\)](#)

[MB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [cited by](#), [index terms](#)

This paper describes the motivation, design and performance of Porcupine, a scalable mail server. The goal of Porcupine is to provide a highly available and scalable electronic mail service using a large cluster of commodity PCs. We designed Porcupine ...

Keywords: cluster, distributed systems, email, group membership protocol, load balancing, replication

9 Detecting shared congestion of flows via end-to-end measurement

Dan Rubenstein, Jim Kurose, Don Towsley

June 2002 IEEE/ ACM Transactions on Networking (TON), Volume 10 Issue 3

Publisher: IEEE Press

Full text available:  [pdf\(481.32 KB\)](#)

[KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [cited by](#), [index terms](#)

Current Internet congestion control protocols operate independently on a per-flow basis. Recent work has demonstrated that cooperative congestion control strategies between flows can improve performance for a variety of applications, ranging from aggregated ...

Keywords: hypothesis testing, inference, network congestion, queueing analysis

10 [Dynamic bandwidth management in single-hop ad hoc wireless networks](#)

Samarth H. Shah, Kai Chen, Klara Nahrstedt

February Mobile Networks and Applications, Volume 10 Issue 1-2

2005

Publisher: Kluwer Academic Publishers

Full text available:  [pdf\(726.19 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [cited by](#),

[index terms](#)

Distributed weighted fair scheduling schemes for Quality of Service (QoS) support in wireless local area networks have not yet become standard. Therefore, we propose an Admission Control and Dynamic Bandwidth Management scheme that provides fairness ...

Keyw ords: bandwidth manager, distributed weighted fair scheduling, max-min fairness, wireless single-hop ad hoc network

11 [Implementing declarative overlays](#)

Boon Thau Loo, Tyson Condie, Joseph M. Hellerstein, Petros Maniatis, Timothy Roscoe,

Ion Stoica

October ACM SIGOPS Operating Systems Review, Volume 39 Issue 5

2005

Publisher: ACM

Full text available:  [pdf\(370.85 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [cited by](#),

[index terms](#)

Overlay networks are used today in a variety of distributed systems ranging from file-sharing and storage systems to communication infrastructures. However, designing, building and adapting these overlays to the intended application and the target environment ...

Keyw ords: dataflow engines, declarative overlays, executable pseudocode

12 [Specification-based anomaly detection: a new approach for detecting network intrusions](#)

R. Sekar, A. Gupta, J. Frullo, T. Shanbhag, A. Tiwari, H. Yang, S. Zhou

November CCS '02: Proceedings of the 9th ACM conference on Computer and

2002 communications security

Publisher: ACM

Full text available:  [pdf\(127.45 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [cited by](#),

[index terms](#)

Unlike signature or misuse based intrusion detection techniques, anomaly detection is capable of detecting novel attacks. However, the use of anomaly detection in practice is hampered by a high rate of false alarms. Specification-based techniques have ...

Keyw ords: anomaly detection, intrusion detection, network monitoring

13 Fast detection of communication patterns in distributed executions

Thomas Kunz, Michiel F. H. Seuren

November 1997 CASCON '97: Proceedings of the 1997 conference of the Centre for Advanced Studies on Collaborative research

Publisher: IBM Press

Full text available:  [pdf\(4.21 MB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Understanding distributed applications is a tedious and difficult task. Visualizations based on process-time diagrams are often used to obtain a better understanding of the execution of the application. The visualization tool we use is Poet, an event ...

14 User interfaces for privacy agents

Lorrie Faith Cranor, Praveen Guduru, Manjula Arjula

June 2006 ACM Transactions on Computer-Human Interaction (TOCHI), Volume 13 Issue 2

Publisher: ACM

Full text available:  [pdf\(1.92 MB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Most people do not often read privacy policies because they tend to be long and difficult to understand. The Platform for Privacy Preferences (P3P) addresses this problem by providing a standard machine-readable format for website privacy policies. P3P ...

Keyw ords: P3P, preferences, privacy, privacy enhancing technology, privacy policy, user agent

15 [The basics of e-learning: an excerpt from handbook of human factors in web](#)

[design](#)

Lisa Neal, Diane Miller

August 2005
eLearn, Volume 2005 Issue 8

Publisher: ACM

Full text available:  [html\(121.69 KB\)](#)  [Publisher](#)
[Site](#)

Additional Information: [full citation](#), [index terms](#)

16 [Rate adaptive multimedia streams: optimization and admission control](#)

Steven Weber, Gustavo de Veciana

December 2005
IEEE/ ACM Transactions on Networking (TON), Volume 13 Issue 6

Publisher: IEEE Press

Full text available:  [pdf\(545.75 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [cited by](#),
[index terms](#)

This work investigates support of rate adaptive multi-media streams on communication networks. Optimal and practical mechanisms to maximize the customer average quality of service (QoS), defined in terms of a normalized time average received rate, are ...

Keywords: admission control, rate adaptation, resource allocation, streaming media

17 [A taxonomy of DDoS attack and DDoS defense mechanisms](#)

Jelena Mirkovic, Peter Reiher

April 2004
ACM SIGCOMM Computer Communication Review, Volume 34 Issue 2

Publisher: ACM

Full text available:  [pdf\(209.38 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [cited by](#)

Distributed denial-of-service (DDoS) is a rapidly growing problem. The multitude and variety of both the attacks and the defense approaches is overwhelming. This paper presents two taxonomies for classifying attacks and defenses, and thus provides researchers ...
